

Your **Vaccines** CDMO Partner for Life

We are an established leader in advancing vaccines from preclinical development to commercial supply across multiple modalities.

End-to-end Vaccines Development and Commercialization

	Preclinical	Clinical	Commercial
Cell Line Development			
cGMP Cell Banking and Storage			
Process Development and Optimization			
Formulation Development and Optimization			
Toxicology Material Generation			
Phase appropriate cGMP Manufacturing			
Product Quality Testing			
Stability Testing			
Analytical Testing			
Process Characterization			
Process Validation			
Product and Process Life Cycle Management			

Vaccine Drug Product and Finished Goods Services

Development and manufacturing capabilities designed with patient safety and centricity in mind.

Our lines offer clinical batches up to 10,000 units for biologics and advanced therapy for your liquid drug product in vial format, and late phase clinical and commercial batches up to 150,000 units for biologics using RTU nested components for your liquid drug product in vial, syringe, or cartridge format.

- Drug product process and formulation development, and process characterization support
- Accelerated and long-term stability studies
- Release of clinical and commercial products – including European qualified persons
- Assembly, labeling and packaging support under our finished goods services:
 - o Assembly into auto-injectors and PFS components
 - o Labeling of vials, PFS and auto-injectors
 - o Primary packaging in single or multi-unit pack format
 - o Secondary packaging
