Partners for Life

Our transformative approach to development and manufacturing emphasizes relationships built on trust and transparency — not transactions.

Introducing a New Kind of Partnership

FUJIFILM Biotechnologies knows the value of innovation. We have embraced a creative approach to the contract development and manufacturing world since our founding in 2011.

That’s why we designed our business platform be scalable, responsive, flexible, and globally integrated — and grounded in three core pillars that underpin everything we do. We call this unique approach our Partners for Life strategy.

Building Trust through our Partners for Life Strategy

Our Three Pillars

We put people first in everything we do.

Our commitment to a culture that values people results in authentic dedication to improvements for patients, through honest and accountable collaboration with our biopharma partners.

Our science and innovation drive transformation.

We focus on meaningful ways to shape development and manufacturing in a way that makes the entire experience more streamlined for our partners and more responsive to patient needs.

We enable unprecedented reliability and consistency in product delivery.

Our aligned global kojoX network sources at least 95% of raw materials from the US, Europe, and Japan to protect supply chain security and support market responsiveness.

Partners for Life Enabled by a KojoX™ Ecosystem

KojoX Delivers Unmatched Harmonization, Seamless Scaling, and Speed to Market

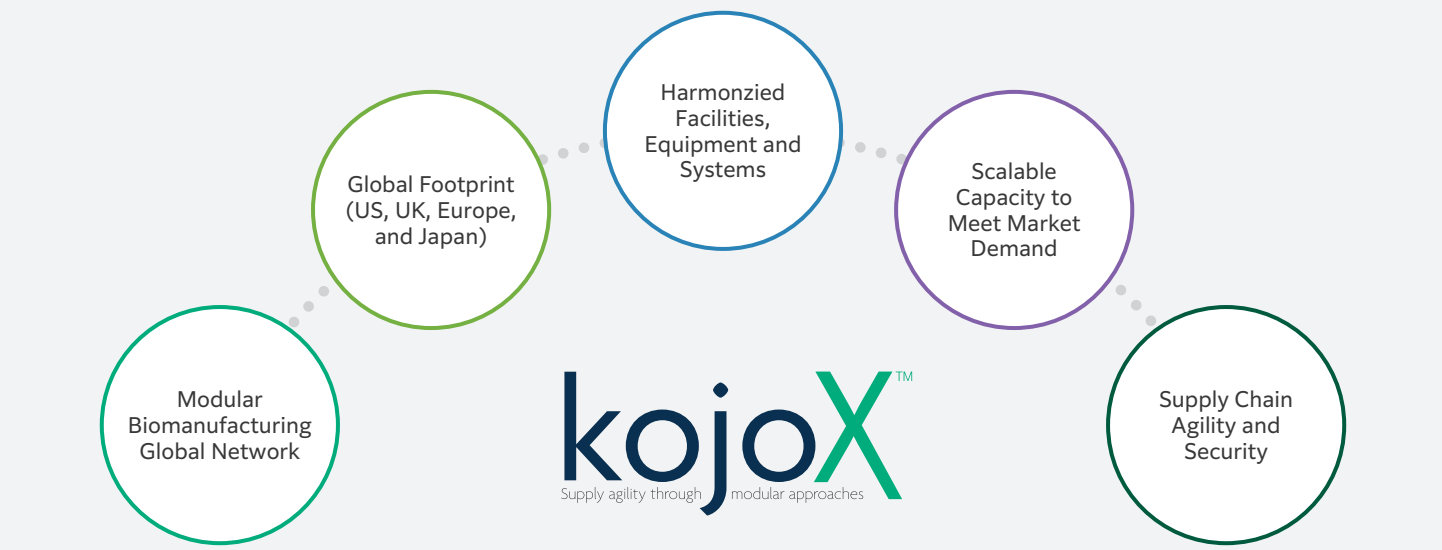

Global standardization across equipment, system programming, and facilities simplifies technology transfer and scale-out

Scalable processes allow rapid capacity expansion and infrastructure agility to mitigate geopolitical and market dynamics

Modular networks enable straightforward, flexible scaling to meet market demands across all major regions

Integrated systems reduce regulatory burden and get medicines to patients faster—without sacrificing quality

We provide an efficient portfolio of solutions from development to commercialization to swiftly and safely deliver life-changing medicines to patients — so you can focus on what you do best.

Partners for *Life*

“Partners for Life” represents a transformative approach to development and manufacturing, emphasizing relationships founded on trust and transparency — founded in people-centric values, transformative science and innovation, and unprecedented delivery.
