## An Operational Ecosystem That Optimizes Manufacturing Processes While Supporting Sustainable Operations Through Our Partners for the Planet Strategy

Through Partners for the Planet, we are dedicated to contributing to the mitigation of one of society’s most pressing challenges and making a meaningful, positive impact on the world through our five key focus areas.

Zero Impact from Operations

Ethical Procurement & Supply Chain

Valued Partners for Customers

Real Patient Impact

Safe & Attractive Work Environment

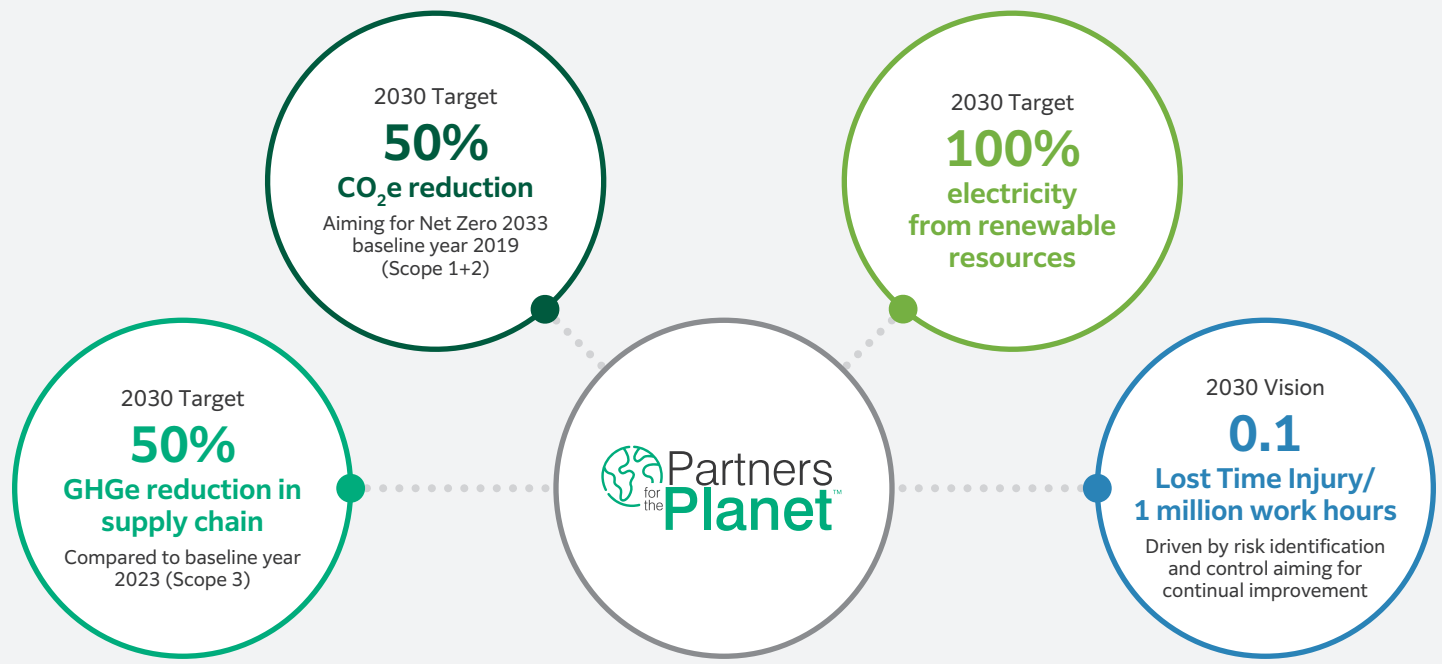

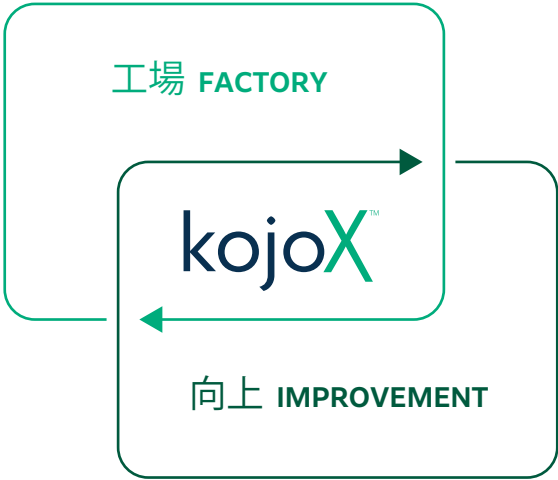

“Our dedication to being Partners for Life is embedded in everything we do. Being true Partners for Life also means being Partners for the Planet, involving continuous improvement and a genuine commitment to making a positive impact on the planet, our society and the communities in which we operate.”

— Lars Petersen, President & CEO

Our industry transforming, globally integrated and harmonized kojoX network plays a central role in achieving our sustainability targets by optimizing process efficiency, sharing best practices and improving productivity across our global biomanufacturing network.

KojoX plays a central role in optimizing process efficiency and improving productivity to achieve our environmental target of reducing energy and water consumption, and cutting waste generation by 50% by 2030. In addition to supporting sustainability through efficiencies gained, kojoX also eliminates bottlenecks that traditionally hinder technology transfer and scale-up. Through our kojoX ecosystem, we provide customers with a fully integrated, global modular framework that ensures our partners have everything they need to efficiently develop, manufacture, and commercialize life-impacting treatments.

## Partners for Life

“Partners for Life” represents a transformative approach to development and manufacturing, emphasizing relationships founded on trust and transparency — founded in people-centric values, transformative science and innovation, and unprecedented delivery.
