

Denmark Facilities

Providing Greater Biomanufacturing Predictability, Efficiency and Performance

>**560 DS batches** produced over the last 5 years

Strong operational performance with **98.5% Batch Success Rate** (YTD)

9 active commercial licenses (CHO and NSO)

18 PPQs completed successfully

A trusted regulatory partner:

- 2/3 of all PAIs waived in last 5 years
- 35 out of 35 Regulatory inspections having a positive outcome

>**17 years** of finished goods manufacturing experience with consistent performance of 99.7% batch success rate

Filling Line with capacity of **30 million units** per year

>**1,500** employees from **65+** nationalities

From October 2025 - Covered by **100% solar-powered** electricity

Gold EcoVadis sustainability rating

Mammalian Cell Culture

Manufacturing

MSAT, Clinical and Commercial Manufacturing Drug Substance, Drug Product and Finished Goods

Scale-up / Large-scale cGMP Drug Substance Manufacturing / Drug Product and Finished Goods

Hillerød - 554,340 ft² (51,500 m²)

Bulk Drug Substance
12 x 20,000 L (current)
+ 8 x 20,000 L (online mid 2026)

Drug Product & Finished Goods
DP PD Characterization lab (Hørsholm)
Vials 2-50R (alucaps and press-fits available)
PFS 0.5-10 mL (vacuum and mechanical plunger setting)
Pre-capped cartridges 1-10 mL
Batch sizes up to 150,000 units
Annual output: up to 30 million units/year

We have a range of solutions to address upstream and downstream workflows. Our automated and customizable solutions de-risk development challenges, putting your program on the path to success.

Partners for *Life*

“Partners for Life” represents a transformative approach to development and manufacturing, emphasizing relationships founded on trust and transparency — founded in people-centric values, transformative science and innovation, and unprecedented delivery.
